CO-INVEST

CO-INVESTMENTS

Share your co-investment opportunities with a wider network of LPs – reach new investors

A new feature on Orca, the Co-investment module lets GPs create and share co-investment opportunities with LP Users. Designed for efficiency, LPs can review opportunities and connect with you directly.

Key GP benefits

The Co-investment module enables you easily offer co-investments to LPs beyond your existing LP base and network.

How the Co-investment module works

1. Create your Co-investment on Orca
2. LP Users are notified about new opportunity
3. LP Users screen the opportunity and contact you directly via Orca

The screenshot shows the Orca Co-investment module interface. On the left, there is a form titled 'Create a new coinvestment' with fields for 'Company / project name', 'Project Everest', 'Country', 'United States', 'Minimum ticket size (M)', 'Total deal value (M)', 'Available for co-investment (M)', and 'Company website'. Below the form is an 'Opportunity description' section. On the right, there is a list of opportunities, including 'OIU Capital Partners' and 'OIU Capital Partners Buyout Fund II'. The interface includes navigation tabs for 'Overview', 'Historical performance', 'Terms', 'Legal', and 'Documents'.

GPs further benefit from Orca's growing LP users base with AUM > EUR 1 trn.
